

# Discover Footprints

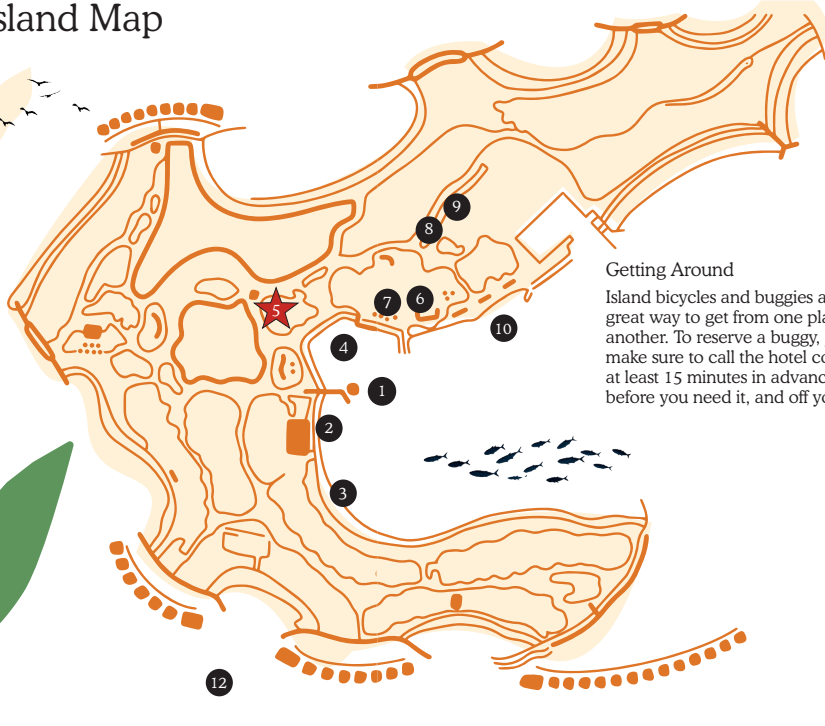

## Our Philosophy

Footprints is an experiential haven for children that centres on play as a medium of self-discovery, giving all children their own space to develop life-long, foundational skills of creative confidence and inquisitiveness, through meaningful engagement led by sustainability and curiosity.

## Your Children & The Environment

We put the environment at the core of all we do. Our belief is that every child holds the key to changing the future and caring for the earth and the oceans. Shaped by these values, our carefully curated programmes introduce children to nature and the issues that affect the environment and the world we live in today.

## Island Map

**Getting Around**  
Island bicycles and buggies are a great way to get from one place to another. To reserve a buggy, just make sure to call the hotel concierge at least 15 minutes in advance before you need it, and off you go!

## Facilities & Activity Venues

- |   |                |    |                |
|---|----------------|----|----------------|
| 1 | Arrival Jetty  | 8  | Organic Garden |
| 2 | Portico        | 9  | Tennis         |

| 6 | Tuk Tuk Gelato |    |                |
| 7 | GoGo Burger    |    |                |

## Ocean Conservation & Marine Biology

At Patina Maldives, we are surrounded by some of the most naturally beautiful and serene waters in the world. Our marine-inspired activities aim to instil respect of the environment and help raise the next generation of ocean saviours.

Hosted by our resident Marine Biologist, we take learning from the classroom to under water.

## Fab Lab

The Fab Lab at Footprints takes a pioneering, future-thinking approach. Here, kids can bring toy models to life using 3D printing and laser cutting technology, echoing the energy-saving prefabrication techniques used in the modular construction of the resort's villas.

Activities in the Fab Lab include designing a race car with wood and creating mysterious shadow boxes.

## Creative Play

Explore a range of creative play activities personalised based on age range and interest of our little guests at Footprints. These will be imaginative play activities aimed at aiding social and emotional growth.

Activities include role play, arts and crafts, face painting and costume play.

## Culinary Flair

Educating tiny travellers on the importance of food provenance and the benefits of a balanced diet, the culinary experiences focus on the way our senses – smell, taste, touch, and sight – impact our relationship with food and change our perceptions of dishes and ingredients.

## Wellbeing

Wellbeing is a hallmark of the Patina Maldives experience, and the Kid's Spa Workshop is designed to encourage a focus on healthy living from an early age. Cultivating a holistic approach, the Wellbeing activities will encompass the importance of nutrition, sport, creativity and most importantly – fun! Those with extra energy to spare can also enjoy some dance fitness during the sessions.

Don't forget to bring sunscreen and lots of water to stay hydrated!
